MARGOT TOLD TO DROP 20 LBS.!

Margot Robbie is a 10 by almost anyone's standards, but Hollywood execs are telling the stunning actress that she needs to drop 20 lbs. if she wants to make it to the A-list. "She's been working out like a fiend but has been told she should lose a lot more," explains a friend, adding that Margot's beau — and rumored fiancé! — **Tom Ackerley** balked at the idea. "When he heard that she 'needed' to lose weight, he was in complete shock." The 24-year-old Aussie, who admits she gets "miserable" if she doesn't indulge in burgers and beer, certainly didn't look overweight in new promo shots for *Suicide Squad* and is trying not to let the pressure get to her. "The whole notion that she's fat is ridiculous," adds the insider. "She's gorgeous." We agree! ★

OFF THE
WAGON?

Bruce and Demi's daughter was out with her party-loving pal, Emma Roberts.

IRELAND'S BIZARRE BRUISES

Ireland Baldwin's life is just one mystery after another. Not only is the troubled teen back in rehab for unspecified "emotional trauma," but it seems that she's endured some shocking physical pain as well. Ireland was recently spotted with multiple bruises on her face, reportedly the result of a violent mugging by three men on the not-so-mean streets of Malibu on June 15. But is there more to the story?

"Her friends can't understand why she hasn't gone to the police," says a source close to **Alec Baldwin** and **Kim Basinger**'s 19-year-old daughter. "Wouldn't that be the first thing you would do? It seems like she's hiding something."

Whatever the circumstances surrounding the dust-up, the incident has only made her already fragile emotional state even more stressed. "She's trying to get her life together, and this happens," says a worried friend. "This is the last thing Ireland needed right now." ★

The 19-year-old's battered face left friends wondering what exactly is going on.

TALLULAH'S

BOOZY RELAPSE

Friends fear **Tallulah Willis** is spiraling out of control as she has flung herself back into the Hollywood party scene. *Star* previously reported that the youngest daughter of **Demi Moore** and **Bruce Willis** checked into Arizona rehab clinic The Meadows last July for cocaine and alcohol abuse, but on June 9 a witness caught the 21-year-old downing cocktails at the Roxy Theater in L.A. "Tallulah was with her friends, including **Emma Roberts**, who was bringing her drinks all night long," reports the spy. "Tallulah did not look sober at all. She was sweating, disheveled and running around the venue like a child on the loose. It was sad to see her in that state." Dr. Damon Raskin, medical director at renowned rehab facility Cliffside Malibu, said that Tallulah needs a new crew if she's serious about her sobriety. "At clubs, the temptation to drink is just too high, and one drink turns into many," said Dr. Raskin. "The smartest thing for Tallulah's recovery is to distance herself from people who drink heavily and to stay away from the party scene." ★
